## Professional Summary

---

Frontend Developer with hands-on experience in building responsive, user-focused web applications using React, JavaScript, and modern UI libraries. Adept at integrating APIs, optimizing performance, and collaborating in team environments to deliver polished, functional user interfaces.

## Technologies

---

**Tech Skill:** HTML, CSS, JavaScript, ReactJs, NextJs, Typescript, Bootstrap, TailwindCSS, jQuery, Redux, GIT, Rest API, Node, ExpressJs, MongoDB, MySQL

**Soft Skill:** Communication, Collaboration, Problem-Solving, Time Management, Adaptability, Creativity

## Experience

---

**Frontend Developer Intern**, Dvertex Info System – Greater Noida, Uttar Pradesh January 2025 – July 2025

**Frontend Developer**, Dvertex Info System – Greater Noida, Uttar Pradesh August 2025 – Present

- Developed and implemented new user interface pages using React and Bootstrap, Improved user experience by reducing page load time by 20% through performance optimization.
- Integrated RESTful APIs to enable efficient data flow between frontend and backend systems.
- Conducted debugging and performance optimization to enhance application stability and responsiveness.

## Projects

---

**Blog Post App** [github.com/BlogPostApp](https://github.com/SoumaySoni/BlogPostApp)

- My Post Blog Application exemplifies my expertise in building modern and responsive web applications using React, with a focus on usability, performance, and user experience. Its intuitive interface, real-time features, and robust functionality make it a standout project in my portfolio, showcasing my skills as a frontend developer and my dedication to delivering high-quality, user-centric solutions.
- Tools Used: ReactJs, Redux

**S.S. Text Utility App** [github.com/SSTextUtilityApp](https://github.com/SoumaySoni/SSTextUtilityApp)

- The S.S Text Utility Project is a comprehensive text processing application designed to offer users a wide range of utility functions for working with textual data. This project showcases my ability to solve real-world problems using web technologies and provides users with valuable tools to manipulate and analyze text data.
- Tools Used: ReactJs

**Portfolio** [github.com/Portfolio](https://github.com/SoumaySoni/Portfolio)

- I am committed to continuously updating and improving my portfolio to reflect my latest projects, skills, and achievements. Regularly incorporating new technologies, refining design elements, and adding fresh content ensures that my portfolio remains relevant, compelling, and reflective of my evolving capabilities as a software developer.
- Tools Used: HTML, CSS, JavaScript

## Education

---

**Rajkiya Engineering College**, BTech in Electrical Engineering Aug 2019 – July 2023

- CGPA: 7.7/10.0
- **Coursework:** Sensors & Transducers, Micro-Processor & Micro-Controller, Power Electronics, Digital Electronics, Electrical Machines, Power System, Network Analysis & Synthesis, Digital Signal Processing
